

Redcliffe Explosives Storage Facility Central England

Our original explosives storage facility based in central England occupies a 200 acre site and has security approvals from the HSE, Police and Counter-Terrorism departments, making it one of the UK's most advanced secure magazine sites in the UK today.

We can provide you with secure and licensed storage for class 1.1 and Section 5 restricted explosives or weapons. Our facility is the ideal solution for projects involving the consolidated shipment of bulk explosives and just-in-time deliveries.

Benefits of the service

- Good geographical location serving both north and south UK
- Close to north east ports of Humberside and East Anglia
- Allows flexibility in planning for UK moves
- Magazines with expansion potential
- High Security Control Room
- 24hours/7days a week/365 days a year access
- Class 1 materials
- Firing range on site

Security approved

Firearms Act Section 5 storage can also be provided. The site has been built and secured in accordance with the Police Standards to achieve this status.

More information

If you would like to discuss anything about our facility, please contact 01773 830 820 or email enquiries@redcliffedefence.com
